### Local Construction Company Hits Milestone

Denver, CO -- January 7, 2005 -- **dcb Construction Company, Inc.**, a locally owned and operated construction company since 1960, announces 45 years of providing design-build construction services throughout the state of Colorado.

A respected Colorado builder since the early 1960's, this local company began concentrating on design-build projects, becoming one of the premier design-build firms. Holding fast to its fundamental belief of doing one thing exceptionally well, dcb Construction Company survived the turbulent 1980's and today generates over \$30 million in revenue annually.

"As a business owner you need to decide to be either very large or very specialized. We decided from day one to specialize in design-build," said John Barna, Jr., President and principal owner. "It's a simple business philosophy that works for us and our clients," Barna concluded.

This core belief of working together is at the heart of the design-build philosophy and a proven method of construction that is now being embraced by the entire construction industry.

Locally owned and operated since 1960 and ranked one of the top ten design-build firms in the State of Colorado, **dcb Construction Company, Inc.** is a full-service building contractor engaged in the design and construction of build-to-suit commercial, industrial, office, retail, warehouse and distribution facilities for owners, users and developers across the Front Range. **dcb's** services include negotiated, design-build, design-assist and select bid.
