### **Associated Builders & Contractors Honors Local Construction Company for Stellar Safety Record**

Denver, CO -- May 23, 2005 -- **dcb Construction Company, Inc.**, a locally owned and operated construction company since 1960, was recognized by Associated Builders & Contractors, Inc. (ABC) – Rocky Mountain Chapter at its 2005 Safety Awards Program in Englewood, Colorado. **dcb** was awarded the Platinum Level Safety Training & Evaluation Process (STEP) Award in recognition of the company's high level of achievement and its ongoing efforts in the development of a quality safety program.

The goals of the STEP Awards are to provide companies with an organized approach to analyze and further develop their safety and lost prevention program and to provide a valid, objective method to measure program improvements. Additional goals include providing recognition for companies' safety efforts and to provide ABC's National Safety Committee with feedback to identify safety needs of contractors. The awards are given in the four categories, from bronze to platinum, and range from safety policies to management's commitment to safety. The awards program is coordinated and judged by ABC's National Safety Committee.

"**dcb's** safety record is a tremendous source of pride for my staff and me," said John Barna, Jr., **dcb** President and Principal. "Our platinum level achievement translates into the residual benefit of cost containment that we gladly pass on to our customers," Barna concluded.

A respected Colorado builder since 1960, **dcb Construction Company, Inc.** began concentrating on design-build projects from its inception and today is ranked one of Colorado's premier top ten design-build firms by Colorado Construction Magazine, 2004. **dcb** is currently celebrating its 45th anniversary of providing design-build construction services throughout the state of Colorado.
